## GREAT CARE NEEDED TO KEEP PLANT AND FRUIT PESTS AWAY

At the interstate plant quarantine conference, held at Riverside, Cal., May 26 to 31, by special request of Governor Thomas E. Campbell and the commission of agriculture and horticulture, Hon. Andrew Kimball, chairman of the commission, represented Arizona.

The devastation to crops by the alfalfa weevil was presented by Dr. H. R. Hagan, state inspector of Utah, who also read a paper prepared by a Dr. Reeves, of the subject was discussed by delegates from Colorado, Idaho, Montana and Arizona. It is evident that the alfalfa weevil still holds sway and does an incredible amount of damage in Utah and other districts infested by it. While weevils thrive best in warm weather they live through the winter and where they once take foothold they seem impossible to eradicate.

Different methods of destroying the weevil were discussed. In the matter of preventing its spread Arizona's representative took the strong position that the strictest kind of a quarantine is necessary.

In the course of his remarks Mr. Kimball told the history of quarantine in Arizona; how for years Arizona had been made a dumping ground for infested nursery stock by careless or unscrupulous nurserymen until a law was passed that stopped it.

"As a young state we were remarkably clean from insect infestation and now we propose to keep clean. We are sorry for Utah in her troubles, but because Utah has the 'flu' that is no reason why we should have it," he said.

Throughout the conference Arizona was designated as having the strictest quarantine in the west. Arizona has shut the door to all countries, states and counties having insect pests or plant diseases which might gain headway in this state.

Mr. Kimball's position was commended very highly for the position he took and Arizona was recognized as the cleanest state in the union.

"As to the dangers which now menace the state," said Mr. Kimball, "not only is the alfalfa weevil spreading, but in spite of the fact that government experts are doing everything possible in Texas and other southern states to prevent the spread of cotton boll weevil and cotton pink boll worm, the boll weevil, at least, is getting uncomfortably close to Arizona."

"California is suffering great losses because of the potato tuber moth and other potato enemies, and with this as well as other pests it realizes, that neither its quarantine laws or its quarantine officers have been strict enough."

"Through the co-operation of the state and federal governments we hope to bring about cleaner conditions, one of the great purposes of the conference being to secure united action throughout the west."

"Our co-operative action resulted in effecting two general western state organizations for the perpetuation of all measures looking to our interests. Arizona's representative has a place as a member of the executive board of the general organization, and aided in the organization of the Western Plant Protective league, of which he will be one of the officers."

**CHILDREN'S NIGHT**—"Children's Night" will be held tonight at Masonic hall by Phoenix chapter No. 5, Order of the Eastern Star, beginning at 8 o'clock. An interesting program has been arranged with plenty of entertainment and refreshments, and a general good time is assured for all members and their children. Visitors have been invited.—Adv.

**JULIA THOMAS**, Worthy Matron. 11

**NEW BUILDING FOR AUTO INDUSTRY TO GO UP ON W. ADAMS**

A one-story and basement brick and concrete building to be erected on the southwest corner of Adams street and Fourth avenue is to be the latest addition to the motor car industry in Phoenix, according to announcement yesterday. The building which is now being planned, will be constructed as a motor car and truck salesman.

The property on which the project was set up has been recently purchased from W. D. Fulwiler by J. Wesley Walker, W. S. Norvell, John D. Loper and Harry A. Diehl, who are understood to be incorporating as the Security Trust company.

The building will lie just north of the Goldwater building, with a frontage of 150 feet on Adams street and 139 feet on Fourth avenue. The corner 160 feet has already been leased by a motor car agency. Another firm will be accommodated on the remaining 100 feet.

Plans for the building are now being drawn by Fitzhugh and Fitzhugh. The contract for the construction will probably be let sometime next week.

Money to loan. Phone 2927 after six.—Adv.

**DR. HARRY R. CARSON** announces the removal of his office to 299 W. Adams St. Phone: Office, 4416; residence, 4417.

**SPARROW WITH PINK EYES** (St. Louis Republic)  
Canton, Ill.—C. D. Cook took a second look when he found a young white sparrow with pink eyes among a brood hatched out in the vicinity of his home recently. The bird was the same as a brood of sparrows, but its feathers are snow white and its eyes pink. It is evidently one of those hybrid freaks that occur now and then in the bird world, and known as "albino."
